

OBJECTIVE

Seeking an engaging and challenging role within a distinguished organization where I can immerse myself in new experiences, cultivate a breadth of skills, and capitalize on opportunities for personal and professional growth. Eager to contribute positively to the team while continuously expanding my knowledge base and leveraging newfound insights to drive innovation and excellence.

EDUCATION

BE in Artificial Intelligence and Machine Learning (2021-2025)

St Joseph Engineering College, Mangaluru
CGPA-8.78

PUC (2019-2021)

M.E.S PU College, Sirsi
Percentage-87%

SSLC (2018-2019)

Don Bosco High School, Sirsi
Percentage-89.76%

TECHNICAL SKILLS

- Programming
 - C, Python
- Operating System
 - Windows, Linux
- Web Development
 - HTML, CSS, MySQL
- Others
 - MATLAB, MS Office

Soft Skills

- Communication
- Problem Solving
- Quick Learner
- Presentation

CERTIFICATIONS

- Introduction to Programming with MATLAB -Coursera
- Introduction to HTML, CSS, JS -Duke University, Coursera
- Foundations of Cyber Security -Google, Coursera

PROJECTS

Hospital Management System

- Tech Stack used: HTML, CSS, MySQL, XAMP, PHP
- Developed a comprehensive Hospital Management System utilizing HTML, CSS, XAMPP, and PHP, integrating relational database principles to streamline patient records, appointment scheduling, and medical data management.

Text Extraction

- Tech Stack used: Python
- Developed a versatile text extraction project that efficiently processes a variety of input sources, including images, PDFs, and webpages, using advanced image processing, OCR, HTML-to-Markdown conversion, and image skew correction.

Resume Shortlister for Candidate Screening

- Tech Stack used: Python
- Developed and implemented a resume short-listing tool to automate initial candidate evaluations, enhancing hiring process efficiency. Utilized predefined criteria to analyze and rank resumes, facilitating faster and more accurate candidate selection for subsequent recruitment stages.

INTERNSHIPS

Salesforce Developer Virtual Internship

- Salesforce Fundamentals, Types Of Flows & Security, Lightning Web Components (LWC) & API.

AICTE - MotionCut Virtual Internship

- Completed a virtual internship focused on python programming, creating basic projects such as unit convertor, password generator using various python libraries.
